

# Do you have Afib and are you worried about your stroke risk?

## ARE YOU

- Diagnosed with non-valvular atrial fibrillation (Afib)?
- At an increased risk for stroke and recommended for oral anticoagulation?
- Willing to comply with study protocol, including medication regimen and follow-up evaluations?

## Yes? You may be a candidate for the CONFORM clinical trial.

The CONFORM clinical trial is studying the CLAAS<sup>®</sup> System, a permanent implant with a conformable foam design, intended to seal the left atrial appendage (LAA) and reduce the risk of stroke, without the need for blood thinners.

**DISCUSS WITH YOUR DOCTOR  
IF YOU ARE A CANDIDATE FOR  
THE CONFORM CLINICAL TRIAL.**

CAUTION: Investigational Device. Limited by Federal  
(or United States) law to Investigational Use.
